

Healthcare cleaning

The professional way

Proudly North American.

How to cut costs and defeat bacteria. The Swep System.

Some say it's almost a 'mission impossible' to maintain maximum levels of hygiene and reduce the risk of hospital associated infections while keeping daily cleaning simple, effective and cost efficient.

We don't agree. We say it's definitely possible to improve hygiene levels and cleaning standards while keeping within budgets.

With the Vileda Professional – Marino Swep one-step pre-prepared method and comprehensive on-site support packages, we can help you reach your goals – ultimate cleaning performance, the prevention of cross contamination and reduction of hospital associated infections.

Complete System

The Vileda Professional – Marino Swep system is a complete one-step pre-prepared cleaning system tailor-made for hospital cleaning. Swep is the most complete and advanced microfiber cleaning system on the market and can be used not only for cleaning floors and stairs, but also for walls, ceilings and hard to reach places.

For maximum results, the Swep system includes a range of other high performance cleaning products including the configurable Origo trolley range and 100% microfiber performance in a re-usable and disposable cloth.

Maximum results

The combination of these innovative products, our expertise in the manufacture of microfiber systems, customized training programs and continuous support

means you can be ensured of maximum cleaning and hygiene results.

Why pre-preparation?

The pre-prepared method is exactly what it says – every mop and cloth required for a days' cleaning is centrally prepared in advance with the correct amount of water and chemical.

Pre-preparation and the mechanical action of the microfiber mops dramatically reduces the amount of chemicals required and leaves each mop damp enough to remove dirt without leaving the floor wet. Also, as the mops are pre-dosed they replace heavy buckets and the need for wringing mop heads.

After cleaning one room/area the mop is simply changed and another pre-prepared mop is placed on the frame for use in the next room/area. The soiled mop is then placed into a bag for laundering, preventing cross contamination.

Award Winning

Vileda Professional – Marino have won several international awards for outstanding functionality and design. Swep Duo won the 'iF' product design award and 'red dot' product design award in 2006 and the Origo trolley system won the 'red dot' product design award in 2008.

Innovation not imitation

Swep is no newcomer. Vileda Professional – Marino has been developing and manufacturing cleaning systems for the healthcare market across Europe for over 40 years. Over this period our healthcare experts, in-house production and R&D departments have ensured the Swep system is always ahead of the market:

- Fifth generation of microfiber mops
- 1000 wash guarantee, including use with hypochlorite
- Independent testing of mops and cloths proving up to 99.99% removal of bacteria (*Pseudomonas aeruginosa* and *Staphylococcus aureus*)
- Durable and disposable microfiber wiping solutions
- Choice of single or double sided mopping
- Fully customized trolley system developed for use with Swep
- Dual-action solution for effective cleaning of safety floors
- Full on-site support and implementation program
- Tailor made training packages, experience of training over 3000 operatives on a site
- Colour coding on all parts of the system

Interchangeable single or double sided mopping!

You now have the choice between the Swep Classic single sided system or the new Swep Duo double sided system. Swep Duo features double-sided high performance mops which allow you to clean twice as far with one mop, perfect for larger patient rooms or corridors. Both the Classic and Duo systems are fully inter-changeable with all Swep equipment and Origo trolleys, allowing you to create a tailor made cleaning solution.

Sweep Classic Mops

The classic single sided mop solution.

Microfiber

- Active fibre fringe traps all large dirt particles and hair
- Microfiber trailing edge gives outstanding cleaning performance and pick-up of the remaining dirt off the floor
- 1000 wash guarantee even when used with hypochlorite

Sweep Duo Mops

A new generation of double-sided mopping.

- All the benefits of the classic MicroCombi and MicroTech but with the added advantage of double sided mopping

Sweep Duo SafetyPlus Mop

This mop is ideal for safety floors

- Cut pile polyamide fibers offer superior scrubbing effect
- Extra strong fibers for long durability
- Low friction cleaning effect on “high friction” structured floors
- Perfect replacement of brushes for tiles and other textured surfaces
- 2 sided mop (Duo SafetyPlus) offers users the ability to scrub and pick up dirt with one mop

Scrubbing Pads

- Use for removal of small stubborn stains, shoe and trolley marks without bending
- Helps reduce back strain from unnecessary bending
- To be used by hanging it around the handle

Origo Trolleys

The Origo range of trolley systems for use with the Sweep Classic and Sweep Duo systems is much more than a method of transporting the mops.

Each trolley has storage for up to 40 pre-prepared mops (allowing cleaning of up to 1,600m² / 17,225 Sq. Ft.), pre-prepared and disposable microfiber wiping, waste collection and a full range of Sweep tools and accessories including locking cabinet

Microfillament Microfiber cloths

Traditional microfiber and ultra-microfiber cloths have a fiber thickness of less than 0.03dtex. Marino Vileda Professional microfiber cloths utilise microfilaments with a fibre thickness of 0.015dtex.

MicroStar contractor

MicroStar contract is the economic solution that provides all the required cleaning performance.

- True 100% Microfiber
- Tested up to 500 times washing cycles

MicroRoll

The ultimate hygienic solution and the first disposable microfiber on the market that offers 100% microfiber performance at a throw-away price.

- No concerns over spores surviving laundering
- 99.99% removal of bacteria

Much more than just products

Vileda Professional – Marino offers you much more than the products required to clean your healthcare environment to the highest standards. When you choose a Vileda Professional – Marino system you automatically gain over 40 years experience of healthcare cleaning across North America and Europe.

One of our healthcare specialists will undertake a full assessment of your cleaning requirements, suggest the right products for you and offer a customized training and support package for effective implementation. Implementation isn't the end of the offer though, our ongoing after-sales support and training gives you piece of mind.

Durable Microfiber cloths

- Machine washable over 500 times
- 99.84% removal of bacteria
- Lightweight reduces washing costs

Assessment of your cleaning requirements & site survey

Disposable Microfiber cloths

- No concerns over spores surviving laundering!
- 99.99% removal of bacteria
- Low cost

Ongoing after sales support

Tailor made cleaning system

Swep Classic

- 5th generation Microfiber mops
- 99.84% reduction in bacteria
- 1000 wash guarantee with hypochlorite

Customized on site training and support package

Swep Duo

- Double sided mops = twice the cleaning
- Fewer mops = lower costs
- Complete system = solves all tasks
