Swep Duo System

Twice as intelligent

Proudly North American.

The art of doubling the cleaning area without making an effort

Swep Duo System is the mop system of a new generation. Just like with its role model, Swep, the focus is kept on ergonomics and efficiency, but with a number of improved features and a brand new talent: two-sided microfibre mops doubling the cleaning capacity!

The result? Improved ergonomics – and above all – better cleaning economy. Sounds smart, doesn't it? So let us give you the full picture.

Two-sided mops = twice the cleaning area

The new Swep Duo System gives you the same great cleaning performance on both sides of the mop. This means up to the double area cleaned by each mop, and half as many mop swaps. It's quite obvious that this saves cleaning time, but it also means a lot of other savings.

Fewer mops = lower costs

If you're looking for cost cuts, you'll soon discover that fewer mops have to be purchased, washed and prepared.

And fewer mops have to be brought to the cleaning area. Lower costs? Of course, and besides – you can still keep on using your single-sided Swep mops. Which means that the initial investments can be kept down, and you'll have maximum flexibility right away.

A new standard in ergonomics = healthier staff

The Swep Duo System is designed to relieve and facilitate, in every detail. One example is the new, ergonomically designed and colour-coded handle with various hand positions and a soft rounded top, shaped to suit the palm.

Then note the low weight and the quick, distinct handle length adjustment. Experience the easiness of flipping the frame around, and how simple it is to change mops. No strange features, just smart solutions. But totally unique for the Swep Duo System.

A complete system = solves every task

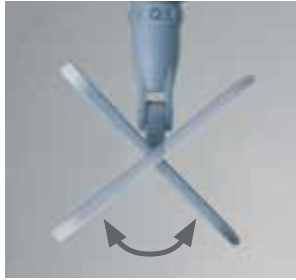

The Swep Duo System is a complete, highly efficient floor cleaning system. Two different types of two-sided microfibre mops cover most application areas, and you can easily clean floors, stairs and walls as well as ceilings with Swep Duo System. Thanks to the trapezoid shape of the frame it's also easy to clean in corners and other hard-to-reach spaces.

The jointed 3D-connection between handle and frame makes it easy to manoeuvre the mop – even in rooms tightly packed with furniture.

The Swep Duo System is perfect for office environments, residential properties and schools, but also suitable for healthcare, hotels and restaurants. So if you want to make a difference when it comes to ergonomics and economy – choose Swep Duo System. Twice as intelligent.

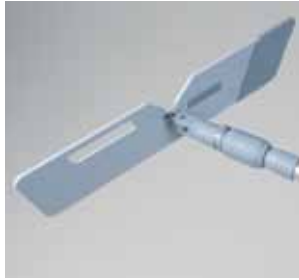

Swep Duo – a close-up.

In every detail, the Swep Duo System is designed for ergonomic and economic cleaning. And due to the high quality of both hardware and mops, Swep Duo System will be an investment that pays off – both in the short and long. Swep Duo System is also compatible with other Swep products. Please contact your Vileda Professional representative for further information.

Two-sided flip-frame

- Doubles the cleaning area
- Just flip the frame around and keep on cleaning!

Trapezoid shape

- Ideal for corners, stairs and hard-to-reach spaces
- Flexible end makes mop changes easier

3D-connection

- Easy to manoeuvre in packed or small spaces
- Even pressure from the centre and out
- Makes cleaning of vertical surfaces – such as walls and doors – easier

Gripping hole

- Makes changing to a new mop easier – such as walls and doors – easier

Two-sided mops

- Equilateral and reversible
- Fewer mops to wash, pre-prepare and to store

Innovative mop design

- Long-lasting quality
- Microfibre, for the best cleaning results
- Minimal need for chemicals
- Low friction – easy to clean
- Even water release – floors dry fast
- Streak-free, one step cleaning

Finger loop

- Easy to find
- Minimizes hand contact with the mop

Swep Duo Press

- When pre-dosing of mops is not possible
- To be used with the bucket method
- 100% polypropylene (chassis) and stainless steel (lever)
- Effective pressing of Swep Duo mops 50 cm
- Ergonomic lever for maximum pressure with minimum effort
- Easy fixing on Origo trolleys with press holder
- Robust structure, great durability

Ergonomic Handle

- Best-in-class ergonomics!
- Various hand positions
- Semi soft material
- Rounded end
- Anti-slip material on the upper part

Telescopic length adjustment

- Quick and easy adjusting and locking

Colour coding system

- Easy to identify for different application areas

Duo MicroPlus

- 100% polyester
- High cleaning performance, low friction and maximum durability
- Commercial laundering up to 1000 times
- Open fiber structure with strong cleaning stripes for better gliding and greater particle pick-up

MicroTech

- 100% polyester
- High cleaning performance, low friction and maximum durability
- Commercial laundering up to 1000 times
- Highly resistant to chemicals
- To be used damp or wet on most floors

Duo SafetyPlus

- This mop is ideal for safety floors
- Cut pile polyamide fibers offer superior scrubbing effect
- Extra strong fibers for long durability
- Low friction cleaning effect on "high friction" structured floors
- Perfect replacement of brushes for tiles and other textured surfaces
- 2 sided mop (Duo SafetyPlus) offers users the ability to scrub and pick up dirt with one mop
