

MicroWindow big

XXL microfibre cloth for professional window cleaning

Application area

MicroWindow big is designed for all glass surfaces in General Building Cleaning, Healthcare and Hotels/Restaurants/ Catering environment. It can be used to take up remaining liquid or in the spray cleaning method. Typical application areas are: Windows incl. frames, mirrors, glass counters, glass tables, glass doors, etc.

Product description

MicroWindow big is an extra large cloth with high absorbancy because of its size and construction. It performs without leaving streaks and without linting through the patented endless microfibre technology. MicroWindow big is soft and supple for easy handling, but durable when it comes to washing.

Customer benefits

- **Productivity through long product lifetime**

Window cloth is strong and durable both in use and in washing. This pays off through low costs-in-use.

- **Professional appearance of the cleaning site**

A streakfree cleaning result on all delicate glass surfaces is the best business card you can give.

- **Productivity through large size**

It is nothing but a fact that a big cloth can absorb more and has a higher m² performance.

Instructions for use

- 1) Prepare the cleaning solution in a spray bottle.
- 2) Fold MicroWindow big 2-3 times.
- 3) Spray on the cloth and wipe the surface with the closed edge in the wiping direction.
- 4) Change cloth side when MicroWindow big has become dirty (streaking) and apply the 8 (16) side technique.
- 5) When MicroWindow big is completely dirty (streaking), rinse it in the bucket or under a water tap.
