

# SprayExpress

## The ready-to-use mopping system

### Application area

SprayExpress is ideal for usage within the HoReCa, or food service industries, General Building and Health Care segments, where it works on all types of floors. It can be used for wet, damp and dry mopping. The mops can be either rinsed under tap or machine washed.

### SprayExpress is a highly professional tool

Designed to make a difference wherever speed, ease of use and lack of storage space are issues. Forget the bucket, SprayExpress is always ready to use! Ergonomic top grip for better storage. Easy and fast spray trigger, simply pump water by sliding the handle downward. Comfortable and secure middle grip thanks to the semisoft black rubber. The 0.6L cleaning solution tank can be removed, filled and reinserted in its housing in just a few seconds. Allows over 2000 sq. ft cleaning area under normal conditions.

Five holes in spray nozzle for instant and even water release just behind the mop frame. Nozzle clip for quick cleaning of the nozzle whenever needed. Express frame with Velcro strips for fast and easy fixation of the mop. As illustrated, the SprayExpress Microspeed Plus moppad is specifically designed to offer performance, absorbency and durability.

Other moppads are available depending on application area. Please speak with a customer service representative for further details.

### Customer Benefits

- SprayExpress is a ready-to-use mopping system, with everything needed in one unit
- No time needed for emptying/filling heavy buckets or mop-wringing
- Floors back in use fast
- Low or no need for chemicals
- Easy Click-in/click-out solution tank
- Ergonomic grip reduces worker fatigue
- Easy pump action spray

### Instructions for use

1. Remove spray tank
2. Fill tank with cleaning solution
3. Re-insert tank in its housing
4. Place mop on floor
5. Position frame centrally over mop
6. Depress the pump a few times to wet mop
7. Start to mop where you want to finish and mop towards furthest point in room
8. Mop backwards using S movement.
9. Depress pump if extra solution is needed
10. Replace mop when dirty
